COSHH RISK ASSESSMENT

Scrubber Dryer Solution (5 litre)

Product Code: BD059-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 5 litre polythene containers in a cardboard carton. Delivered in single, 5 litre containers if required. Polythene containers incorporate handle for carriage. Product is supplied undiluted.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is secure at all times.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come in to contact with them.
STORAGE			
Containers must be stored upright in a cool, dry, well-ventilated storage area. Product must be kept stored in its original container.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Keep containers in secure storage areas. Store away from oxidising materials. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that containers are not split or blown. Make regular checks to ensure that storage area is clean and tidy.
USAGE			
Product is dispensed into a bucket or bowl of water, either directly or with the use of a pump dispenser. Diluted product is dispensed into Scrubber Dryer machine.	Risk of eye contact. Risk of skin contact. Risk of ingestion. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Wipe up any splashes or spillages immediately; large spillages can be hosed away using clean water. Ensure that the container is returned to the store when not in use. Always read the manufacturer's instructions prior to use.	Provide employees with PPE as follows: • Household rubber gloves When mixing solutions, ensure that operatives add product to water. Ensure that operatives are aware of location of First Aid facilities.
DISPOSAL			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Risk contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal.
